## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement has been received and considered. However, the foreign documents have not been considered since they can not be entered into the new EDAN system. Applicant is requested to send in a courtesy copy to the Office.
2. It appears applicant filed a duplicate copy of the patented claims in applicant's prior patent to 6,702,069. These claims were filed in an amendment on 10/5/04, subsequent to the ones that filed 3/9/04, and is the most recent amendment in the EDAN system. No restriction or election requirement was made in that patent application (10268,409).

### ***Claim Objections***

3. Applicant should supply the claims with proper identifiers pursuant to the new rules under 37 C.F.R. 1.121.

Further, Claims 2-5,7,8 depend from canceled claims .

### ***Double Patenting***

4. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Art Unit: 3683

5. Claims 1-8 rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-8 of prior U.S. Patent No. 6,702,069. This is a double patenting rejection.
